SAYS
WHO

At Says Who we are a team of dedicated furniture designers rooted in the traditions of Scandinavian design. With passion and curiosity, we challenge the expected and create great design for everyone. We handle the whole process, all the way from ideation and design through prototype and engineering to final product. Our goal is to deliver fantastic furniture.

Kasper Meldgaard and Nikolaj Duve founded the studio back in 2010. As friends, buddies, and partners in business, they established a company based on their shared desire to create. Their solid business understanding and a wide array of skills within design, construction, and engineering made them a great team from the start. Today, we are a team of ten dedicated furniture addicts rooted in the traditions of Scandinavian design. We are located in Egaa, north of the city of Aarhus. The harbor is at our doorstep, providing the studio with a down to earth atmosphere and a stunning sea view.

We are industrial designers with love for modern Scandinavian design. Simplicity and functionality are the core qualities of our iconic designs.
